HOW TO WORK WITH US

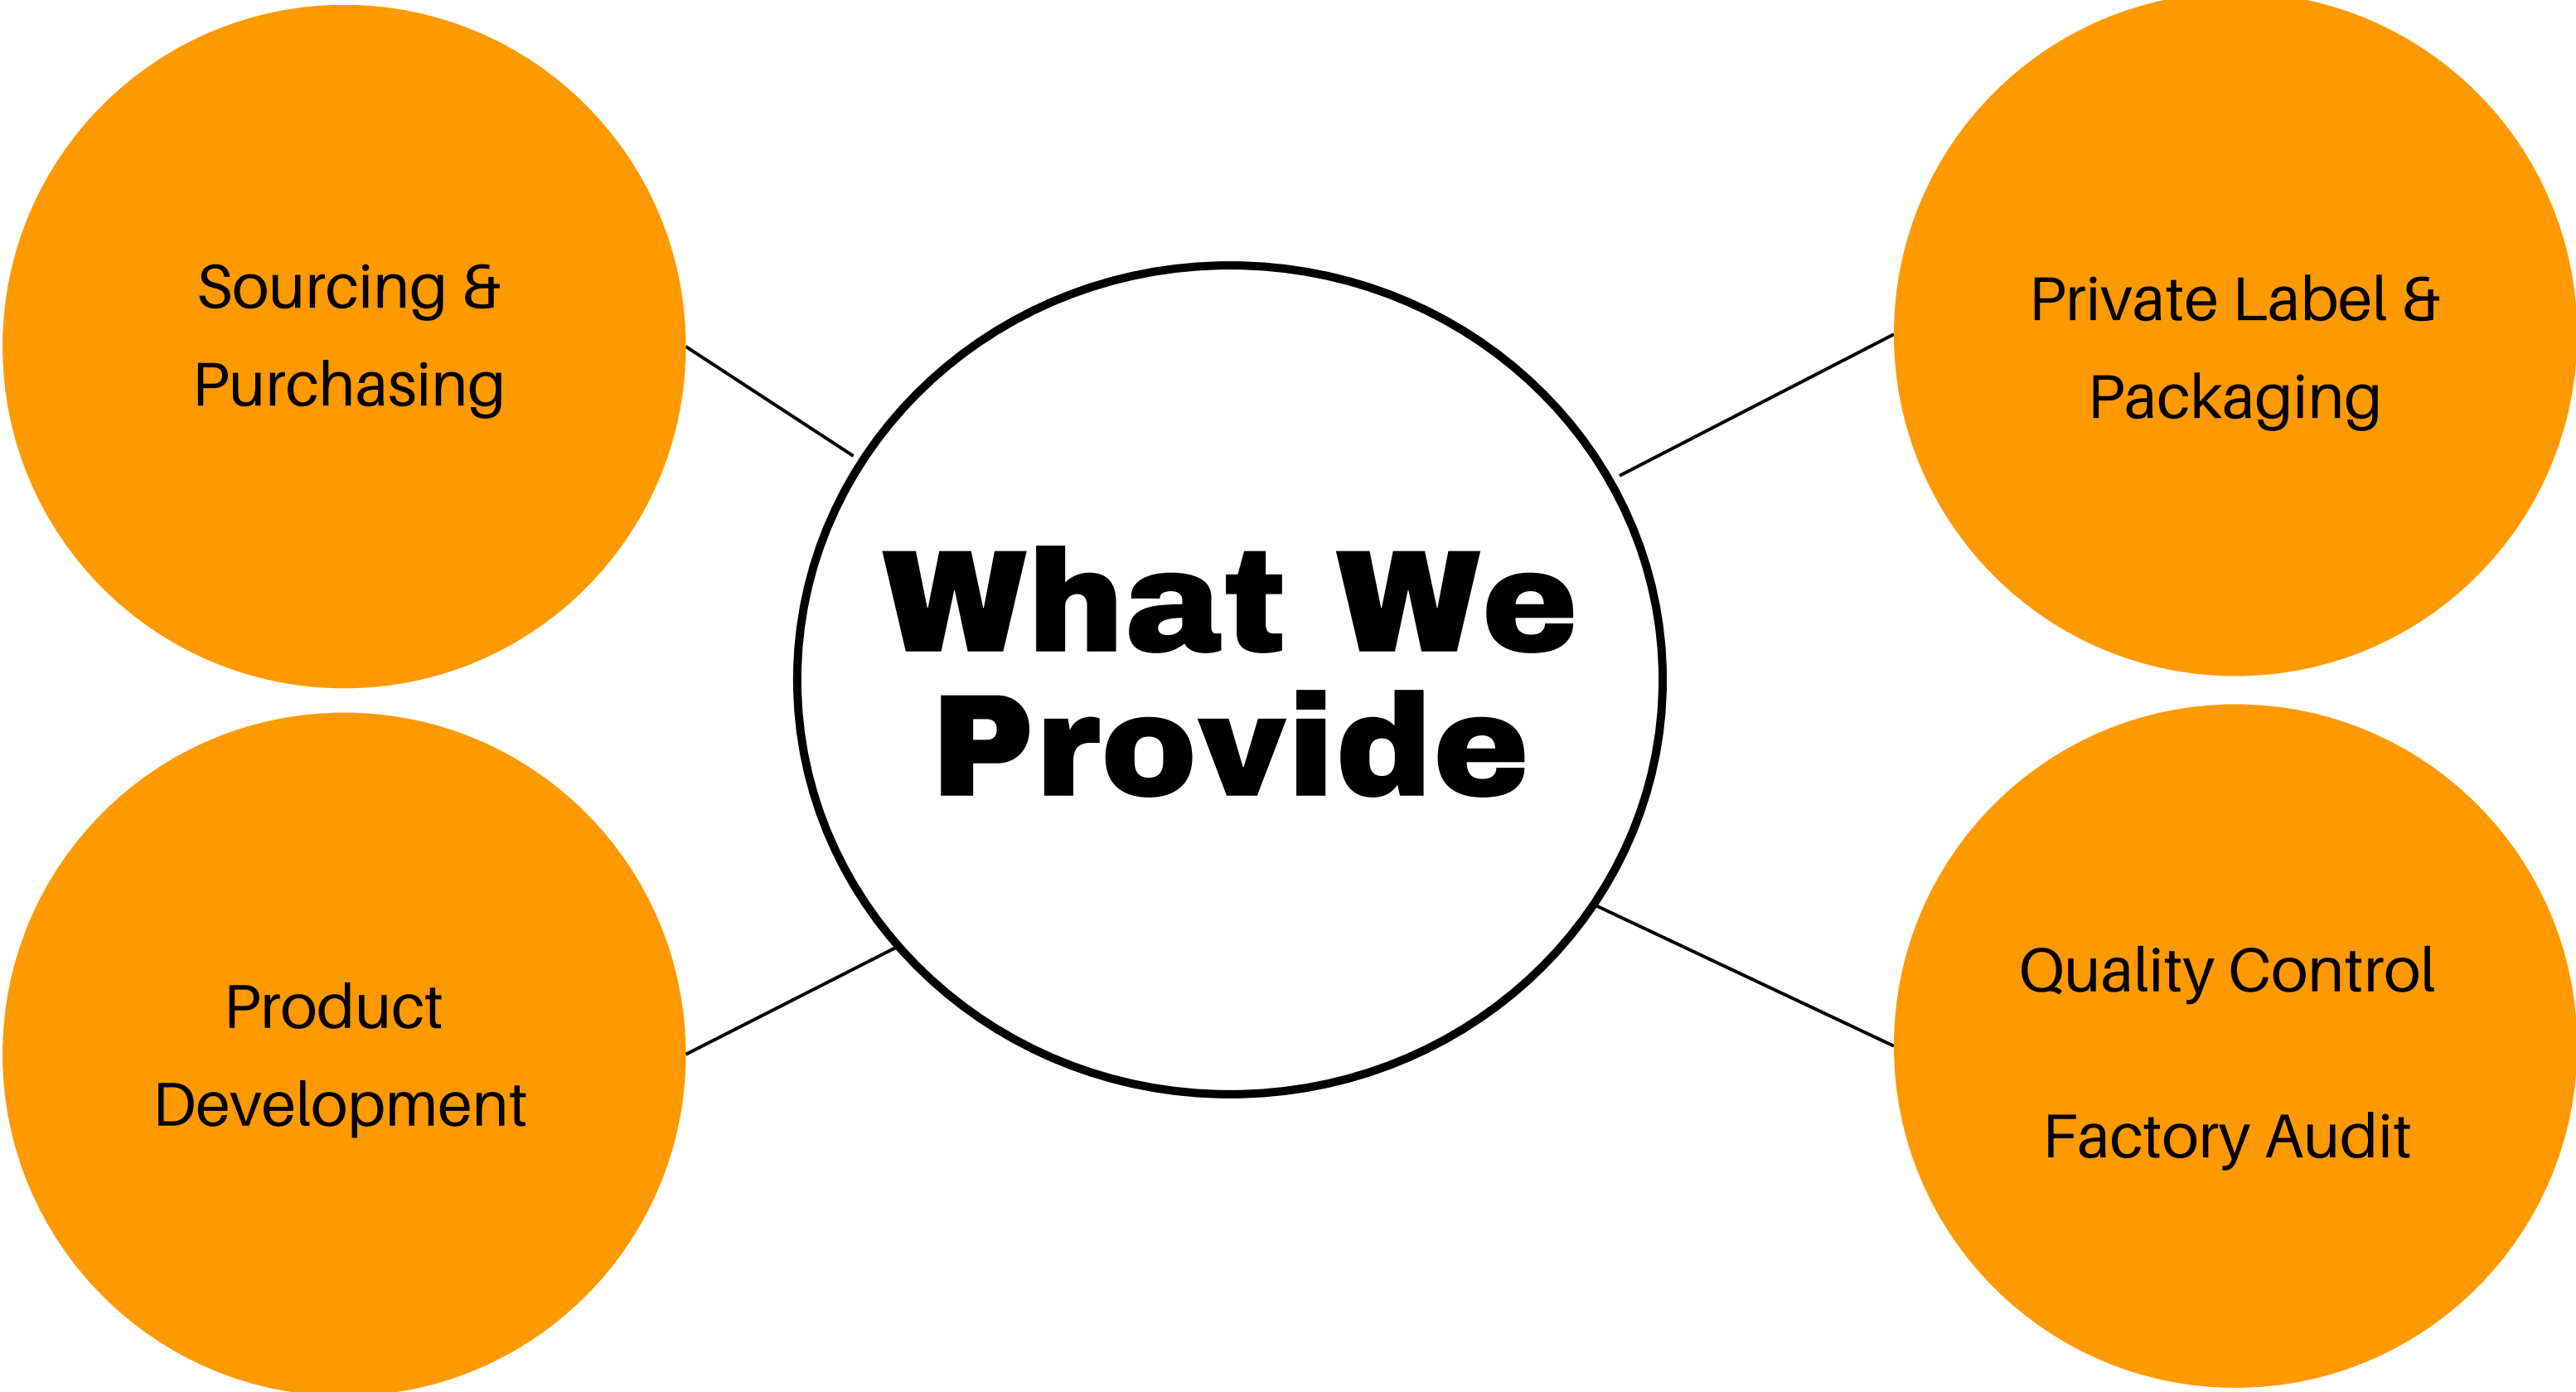

About ITS Promotion

ITS Promotion started running since 2008.

We provides services covering complete business chain, acting as your representative and working as your buying office.

We are minimizing the risks of sourcing in China by choosing reputable trade partners and using stringent systems to ensure product quality. We have the contacts, systems, people and resources to source you the best deal in China.

What Makes Us Unique

Quality Assurance

We are committed to ensuring the highest standards of quality in every product. Our quality control process involves meticulous inspections at various stages of production, ensuring that each item meets your specifications and quality expectations before it reaches you.

Professional Services

We offer specialized sourcing services tailored to meet the unique needs of our clients. Whether it's for customized gifts, promotional items, or any other specific needs, our team works closely with clients to understand their objectives and deliver solutions that align with their business goals.

Competitive Prices

We always encourage our clients to compare our quotes with those they receive from other suppliers before selecting us. Over 90% of them choose us because we consistently offer the most competitive prices.

What Makes Us Unique

Factory Audit

We conduct comprehensive audits of factories to assess their manufacturing capabilities, quality control systems, and overall operational standards. This process includes on-site evaluations, reviewing production processes, checking compliance with industry standards, and ensuring ethical practices.

Product Development

Transform Your Ideas into Market Leaders! Partner with us to create innovative products that will carve out a unique position in the market and give you a competitive edge. We provide expert guidance at every stage of the development process, ensuring your vision becomes a successful reality.

In-house production

Although we are a sourcing company, we have our own production department capable of handling tasks that many factories are unable or unwilling to do. These tasks include product repackaging, bundling, eCommerce preparation, dropshipping and other services.
